Join Get IT Done today & be part of our dynamic team!

Get IT Done is the specialist with relevant experience and knowledge in IT Management, to support SMEs in the development and follow-up of their IT projects. We initiate the project together, which results in a project plan with which we are ready for the follow-up and implementation of the project.

Due to the expansion of our activities, we are looking for a:

Data & BI Specialist (m/f)

What responsibilities do you take on?

- ✓ **Data analysis:** Dive deep into various data sources to unlock insights and structure data for further analysis.
- ✓ **Visualization:** Design compelling reports and dashboards with Power BI, bringing data to life for our customers.
- ✓ **Project management:** translate customer needs into technical and functional requirements, develop an implementation plan, and ensure its realization.
- ✓ **Communication:** Work closely with customers and colleagues at different levels to identify needs and provide solutions.
- ✓ **Customer visits:** After thorough internal training, you visit customers to analyze and deliver projects.

Who are we looking for?

- ✓ **Education and experience requirements:** You have a bachelor's or master's degree in ICT, economics, or a related field. Or you have been equated by significant practical experience in data analysis and business intelligence. Then we would like to invite you to apply.
- ✓ **Skills:**
 - In-depth knowledge of data modeling and experience with SQL and Power BI.
 - Experience with other BI tools is a plus.
 - Excellent command of both Dutch and English, knowledge of French is a plus.
- ✓ **Personal qualities:** You are a team player with strong communication skills, who thinks and acts analytically, customer-oriented, and solution-oriented. Stress resistance and taking initiative are key.
